### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 25 June 2010.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Sumitomo Electric Industries, Ltd. (JP 8-165582 A).

Patent from Sumitomo Electric Industries, Ltd describes a component comprising: a chrome plating layer on a base matrix material of Cu, or Cu alloy (claimed a first means or a metal layer electrochemically less noble than the matrix metal material) and gold plating layer on the chrome plating layer (claimed a second means or a second metal film layer electrochemically more noble than the matrix metal material). These metals would provide claimed reactions when dipped in a cleaning liquid since they carry the same electrochemistry properties as described above.

The limitations of describing the electrochemical property of the materials when dipped in a cleaning liquid are mental steps and since the cleaning liquid is not a part that makes up the component; they don't carry patentable weight.

***Response to Arguments***

3. The first means and second means are interpreted as the first metal film and second metal film respectively. The first metal film is electrochemically less noble than the matrix metal material and the second metal film is more noble than the matrix metal material as described in page 3 of the specification.

Applicant's remark that Sumitomo doesn't describe a structure that performs the identical function is found unpersuasive because the interpretation of the first means and second means have been explained and the structure that provides claimed function also have been provided above. Applicant has not provided any scientific evidences that such structure would not provide claimed functions. Therefore, without any further evidences, applicant's merely assertion, which Sumitomo doesn't describe claimed structures that perform certain functions, is found unpersuasive.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
